EXPERIENCE

Sound Transit · UX Researcher *Jan 2026 – Jun 2026*

- Led the most research-intensive capstone in the HCDE cohort — 6 methods across the full IA research lifecycle: GA4 analytics, heuristic evaluation, card sorting (56 participants), moderated usability testing, competitive analysis, and two rounds of tree testing
- Uncovered 618K annual internal search sessions and 100% bounce rate on key pages — reframing the problem from structure to findability; navigation recommendations adopted by Sound Transit's Digital Web team
- Facilitated co-design workshops with Sound Transit staff to validate IA directions before finalizing deliverables
- Delivered 5 user personas, full process documentation, sitemaps, and prototypes to sponsors

Nordstrom Rack · UX Researcher *Jan 2025 – April 2025*

- Recognized by Nordstrom Rack's UX team for fast, efficient, and clear research delivery across the full project lifecycle
- Ran 6 moderated usability sessions on in-store pickup flows for one of the top 3 US off-price retailers — recruited participants, wrote discussion guides, synthesized findings via thematic analysis
- Delivered 3+ actionable recommendations, all adopted — improving the pickup experience for millions of customers

UW Inclusive Design Lab · UX Researcher *Jan 2023 – PRESENT*

- Co-authored "Unseen City Canvases" — a qualitative study on BLV perspectives on urban public art access using semi-structured interviews with 16 participants; published at ASSETS 2026 (2nd author)
- Contributed to research design, interview protocol development, thematic analysis, and paper writing

IBM · Innovation Designer Intern *Jun 2023 – Aug 2023*

- Led facilitated Mural discovery workshops with CVS Health (300K+ employees) and MCNA/UnitedHealth Group — surfacing undocumented system dependencies and cross-team workflow gaps that directly shaped client roadmaps
- Ran empathy mapping session with MCNA stakeholders; identified process automation gaps that drove IBM Watson Orchestrate recommendation
- Conducted UX audit of IBM SaaS Console notification system — diagnosed language and hierarchy failures; research findings directly briefed the redesign team
- Co-built a learning resource guide and mock client workshop program for future IBM design interns

UW Makeability Lab · UX Researcher *Jun 2023 – Aug 2023*

- Contributed to ARTennis — a real-time wearable AR system for low vision tennis players built on HoloLens 2 with a custom-trained computer vision model
- Ran pilot evaluation with LV participant; surfaced critical HoloLens FOV failure mode that shaped future research direction — published at UIST 2023 (4th author)
- Contributed user research, paper writing, and figure design including visual representations of LV participant perception

EDUCATION

University of Washington

M.S., Human Centered Design & Engineering
Sep 2024 – Jun 2026

University of California, Davis

B.S., Cognitive Science (Computational Emphasis)
B.A., Interaction Design
Sep 2020 – Jun 2024
Received Departmental Citation for Academic Excellence & Community Leadership

PUBLICATIONS

ASSETS 2026

Unseen City Canvases: Exploring Blind and Low Vision People's Perspectives on Urban and Public Art Accessibility
2nd author

UIST 2023

Towards Real-time Computer Vision and Augmented Reality to Support Low Vision Sports: A Demonstration of ARTennis
4th author

RESEARCH

- Usability testing (mod. & unmod.)
- Semi-structured interviews
- Thematic analysis
- Card sorting
- Tree testing
- Heuristic evaluation
- GA4 & behavioral analytics
- Survey design
- Co-design workshops
- Accessibility research
- Competitive analysis
- Affinity diagramming
- Empathy mapping

DESIGN

- Figma · Mural · Information architecture · Wireframing & prototyping
- Interaction design

TECHNICAL

- HTML · CSS · JavaScript · React
- Python · R
