

Amy (Seunghyun) Lee

Mixed-Methods UX Researcher

Seattle, WA · [Email](#) · [LinkedIn](#) · [Portfolio](#) · US Citizen

EXPERIENCE

UW Inclusive Design Lab

Jan 2025 – PRESENT

Graduate Research Assistant

- Examined blind and low-vision (BLV) people's perspectives on challenges and opportunities with urban art
- Conducted 16 semi-structured interviews consisting of a reflection on prior art experiences and a design exploration with six probes
- Contributed to writing and submitting a paper [\[Link\]](#)

Sound Transit

Jan 2026 – Jun 2026

UX Research Assistant

- Led card sorting, usability testing, and stakeholder interviews that shaped the new information architecture for the site redesign
- Initiated rider sessions to surface deeper friction and advocated for riders (80% of total users) as the primary audience
- Created the Rider Guide and Fares pages
- Presented research findings and the prototype to ST teams weekly, earning positive feedback and stakeholder alignment at the mid-point and final review

Nordstrom Rack

Jan 2025 – Sep 2025

UX Research Coordinator

- Uncovered pain points for NR customers adding same-day pickup items to their bags and starting the checkout process
- Ran 6 remote moderated usability tests and delivered 6+ design recommendations adopted by the UX Design and Research teams
- Recognized by the stakeholders for the final research deliverable and effective communication throughout the project

IBM

Jun 2023 – Aug 2023

Innovation Designer Intern

- Facilitated discovery and empathy workshops to identify new business needs and unmet challenges for healthcare companies
- Performed a UX audit of the IBM SaaS Console notification system to diagnose language and hierarchy failures that informed the Software Design team
- Built an intern survival guide and mock client workshop materials for incoming design interns

UW Makeability Lab

Jun 2023 – Aug 2023

Undergraduate Researcher

- Designed a wearable augmented reality (AR) prototype to support BLV people playing ball-based sports
- Supported pilot evaluation, figure and video creation, and paper writing
- Published at UIST (4th author) [\[Link\]](#), a symposium on user interface software and technology
- The work was featured in an article by UW CREATE [\[Link\]](#)

PUBLICATIONS
