

Amy (Seunghyun) Lee

Mixed-Methods UX Researcher

Seattle, WA · [Email](#) · [LinkedIn](#) · [Portfolio](#) · US Citizen

EXPERIENCE

UW Inclusive Design Lab

PRESENT

UX Researcher

- Examined blind and low-vision people's perspectives on challenges and opportunities with urban art
- Conducted 16 semi-structured interviews consisting of a reflection on prior art experiences and a design exploration with six probes
- Contributed to writing and submitting a paper to ASSETS (2nd author)

Sound Transit

2026

UX Researcher

- Led card sorting, usability testing, and stakeholder interviews that informed the new information architecture for the site redesign
- Initiated rider testing sessions to surface deeper friction and advocated for riders (80% of total users) as the primary audience
- Designed the Rider Guide and Fares pages
- Presented research findings and the prototype to ST teams weekly, earning positive feedback and stakeholder alignment at the mid-point and final review

Nordstrom Rack

2025

UX Researcher

- Uncovered pain points for NR customers adding same-day pickup items to their bags and starting the checkout process
- Ran 6 remote moderated usability tests and identified 6+ design recommendations adopted by the UX Design and Research teams
- Recognized by the stakeholders for the final research deliverable and effective communication throughout the project

IBM

2023

Innovation Designer Intern

- Ran discovery and empathy workshops to identify new business needs and unmet challenges for healthcare companies
- Conducted a UX audit of the IBM SaaS Console notification system to diagnose language and hierarchy failures that informed the Software Design team
- Built an intern survival guide and mock client workshop materials for incoming design interns

UW Makeability Lab

2023

Undergraduate Researcher

- Contributed to paper writing, AR/VR prototype design, and figure creation
- Published at UIST as 4th author

EDUCATION

University of Washington

M.S. in Human Centered Design & Engineering

University of California, Davis

B.S. in Computational Cognitive Science

B.A. in Interaction Design

Received Departmental Citation for Academic Excellence & Community Leadership

PUBLICATIONS

UIST

Towards Real-time Computer Vision and Augmented Reality to Support Low Vision Sports: A Demonstration of ARTennis
